Environmental Assessment for Transplanting Sharptailed Grouse to Rocky Flats Plant

E. M. Lee, Director, Environmental Management, EG&G Rocky Flats, Inc.

RFO has received a copy of a memo from EH-1 to DP-1 that states that an environmental assessment (EA) is the appropriate level of NEPA documentation to be prepared for the Colorado Division of Wildlife proposal to transplant sharptailed grouse to the plant site. EG&G is authorized to prepare an environmental assessment of the proposal. Please keep in mind that the Division of Wildlife wishes to transplant the grouse in April of 1993 when scheduling preparation of the EA.
